EXPERIENCE

Student Assistant (PCP)

Nov 2024 – Mar 2025

Raymond James

Florida, USA

- Devised a full-stack financial application utilizing **Angular** for frontend, **ASP.NET** for controller, and **Oracle** for database management, improving system efficiency and scalability by 55%.
- Implemented **Excel** for data export functionality for streamlined data management, improving reporting efficiency by 40%, and utilized **GIT** for collaborative development, resulting in a 80% increase in team productivity.
- Integrated **CRUD** operations to optimize data handling and reduced latency by 60%, while managing user roles and permissions to enhance security and control.

Frontend Developer (React)

Apr 2022 – Jul 2023

Infosys

Pune, India

- Architected 50 user interfaces and prototypes using **HTML**, **CSS**, **JavaScript**, **React**, and **TypeScript**, achieving an 80% improvement in meeting client specifications and elevating user experience benchmarks.
- Developed and integrated full-stack web development integrating **REST** and **SOAP APIs** and **GIT** version control, slashing data latency by 70% for seamless continuous integration and agile product management.
- Instituted responsive design principles across projects and conducted thorough design review end-to-end, ensuring 55% increase in optimal user experience across diverse devices and screen resolutions.
- Mentored a team of 6 UI professionals through tailored training and interactive written and interpersonal skills, catalyzing a 50% boost in **cross-functional support** and proficiency in UI development techniques.

Software Engineer

Dec 2020 – Mar 2022

Capgemini

Pune, India

- Spearheaded client services for 50+ **Microsoft** and **AWS** accounts, applying meticulous attention to detail to ensure seamless operations with a uptime 100% response rate, significantly bolstering customer prioritization.
- Optimized performance and conducted integration testing, resolving 120 client issues and improving operational efficiency by 60%, while boosting customer retention by 30% and ensuring cross-functional compliance.
- Strengthened system security through advanced **IAM** policy design, reducing unauthorized access by 40% and fortifying infrastructure management and data integrity with industry-leading access control measures.

PROJECTS

Home Service App | <https://home-service-app-drab.vercel.app>

Jun 2024 – Jun 2024

- Built a **Next.js app** for home service bookings with **Hygraph CMS** integration and **Descope** authentication, improving authentication efficiency by 70% and ensuring seamless backend data management.

Budget Planner | <https://budget-planner-fxfv.onrender.com>

May 2024 – May 2024

- Constructed a **full-stack** budget planning application with **Angular** and **Node.js**, improving user productivity by 30%, reducing financial tasks by 20%, and improving financial insights and management by 40% and 35%.

Vikram Travels | <https://vikram-travels.netlify.app>

May 2022 – Jun 2022

- Formulated an agile **React** website for Vikram Travels, boosting online bookings by 20% and customer satisfaction by 15%, while optimizing email services with **EmailJS** for a 30% faster response time.
