## EXPERIENCE

### Student Assistant (Practice Center Project)

Nov 2024 - Mar 2025

Raymond James

Tampa, Florida

- Devised a full-stack financial application utilizing **Angular** for frontend, **ASP.NET** for controller, and **Oracle** for database management, accelerating system efficiency and scalability by 55% through strategic problem-solving.
- Implemented **Excel** for data export functionality for streamlined data management, elevating reporting efficiency by 40%, and utilized **GIT** for collaborative development, resulting in a 80% increase in team productivity.
- Integrated **CRUD** operations to optimize data handling and reduced latency by 60%, while managing user roles and permissions to enhance security and control.

### Frontend Developer (React)

Apr 2022 - Jul 2023

Infosys

Pune, India

- Structured 50 user interface and prototypes using **HTML, CSS, JavaScript, React, and TypeScript** achieving an 80% improvement in meeting client specifications and elevating user experience benchmarks.
- Developed and integrated full-stack web development integrating **REST API** and **GIT** version control, slashing data latency by 70% for seamless continuous integration and agile product management.
- Instituted **responsive design** principles across projects and conducted thorough design review end-to-end, ensuring 55% increase in optimal user experience across diverse devices and screen resolutions.
- Mentored a team of 6 UI professionals through tailored training and interactive written and verbal communication skills, catalyzing a 50% boost with proficiency in UI development techniques and web services.

### Software Engineer

Dec 2020 - Mar 2022

Capgemini

Pune, India

- Spearheaded client services for 50+ **Microsoft** and **AWS** accounts, applying meticulous attention to detail to ensure seamless operations with a uptime 100% response rate, significantly bolstering customer prioritization.
- Optimized performance and conducted integration testing, resolving 120 client issues and maximizing operational efficiency by 60%, while boosting customer retention by 30% and ensuring cross-functional compliance.
- Strengthened system security through advanced **IAM** policy design reducing unauthorized access by 40%.

## PROJECTS

### Home Service App | *Next.js, Hygraph, Descope, GraphQL, TailwindCSS* | [Link](#)

Jun 2024 - Jun 2024

- Built a **Next.js app** for home service bookings with **Hygraph CMS** integration and **Descope** authentication, streamlining authentication efficiency by 70% and ensuring seamless backend data management.

### Budget Planner | *Angular, Node.js, Express.js, Typescript* | [Link](#)

May 2024 - May 2024

- Constructed a **full-stack** budget planning application with **Angular** and **Node.js** upgrading user productivity by 30%, reducing financial tasks by 20%, and tweaking financial insights and management by 40% and 35%.

### Vikram Travels | *React, Material UI, EmailJS* | [Link](#)

May 2022 - Jun 2022

- Formulated an agile **React** website for Vikram Travels, boosting online bookings by 20% and customer satisfaction by 15%, while optimizing email services with **EmailJS** for a 30% faster response time.
